

# SCOUTS CANADA YLT

## Crazy Tale

### COUNCIL ROCK

Leadership: Plan-Do-Review

#### The Adventure:

Brainstorm ideas for adventures by teaming up on a new story! As a Lair, sit in a circle. Decide on who will go first. That Cub writes the first two lines of a story. The story should be about one or two adventures that that Cub would like to share with the Pack. After writing the two lines, the Cub who went first folds the paper to cover up the first line and passes the sheet to the next Cub. That Cub writes two more lines based on the sentence that's not covered up, and then covers up the first three lines and passes the paper to the next Cub. Keep going until everyone has written his or her part, and then read the story together.

#### Safety Note:

Your story should be made up—a work of fiction. Do not write anything that could hurt somebody's feelings. What other rules can your Lair agree on before this adventure?

#### Plan:

- When and where will you share this adventure?
- What materials do you need?
- How long does each Cub have to write his or her two sentences?
- Who will start? How will you decide?
- Who will read the story when it's finished?

#### Do:

- Write a fun story and find out what adventures everyone would like to share!

#### Review:

- What do you know now that you did not know before?
- How did your story turn out?
- What was your favourite twist to the story?
- Will you share your story at the next camp or campfire? Why or why not?
- What adventures are you most excited to share?
- What would you do differently next time?
